

From First Gig to Steady Income, One Page

A free Lumaset Foundation cheat sheet – keep this by your desk

What to Remember

- Real work is not always good work.
- Judge opportunities on clarity, pay, time load, and boundaries.
- Use simple repeatable systems: intake, agreement, invoice, work log.
- Ask pattern questions when a new offer feels unfamiliar.
- Watch how the money moves.
- Never deposit your own money to unlock work or earnings.
- Price or accept work based on the full load, not the first task only.
- Fix problems fast and use them to strengthen your system.
